WATCH

The films we select as part of our programme are often award winners in their own countries and have huge crowds going to watch them. We want to share these with you at LYFF because you won't get to see them anywhere else. We're also really passionate about giving you the chance to see children's lives from different places and in different cultures.

This year, we are delighted to strengthen the work we have done for many years to support gender equality within cinema by working alongside the Film 50:50 initiative in Leeds which aims to showing and raising awareness of films promoting women filmmakers. Film 50:50 has a growing number of partners including Leeds City Council, Women's Lives Leeds, Leeds University and A Listening Space. They are currently showing a season of films at Heart in Headingley.

The programme information is correct at time of going to press but is subject to change - for latest info see website.

All films marked with the Story Bees logo are accompanied by a free creative activity related to the film. The start times for the films listed includes the activity. The film will start 20-30 minutes after this time. See www.leedsfilmcity.com for full details.
